## **ardsan additivo per interni**

**Mould resistant additive for latex paints**

### **GENERAL PROPERTIES**

ARDSAN ADDITIVIO PER INTERNO is a concentrated solution of specific broad-spectrum chemical agents devised to be added to our traditional latex paints to inhibit the growth of mould, fungi & algae.

The final finish preserves its original aspect impeding any health hazards due to the proliferation of moulds.

Latex paints corrected with ARDSAN ADDITIVIO PER INTERNO, are ideal for painting humid rooms such as kitchens, bathrooms & extremely cold walls or poorly aired premises.

### **INSTRUCTIONS**

#### **Application:**

- A bottle of ARDSAN ADDITIVIO PER INTERNO contains the quantity for 4 litres of emulsion paint. The effectiveness & durability of the treatment depends on the quality of the products to be corrected; the best performance is obtained with highly washable latex paints.
- Shake the bottle before adding the emulsion paint. Stir well to guarantee the homogenization of ARDSAN.
- Wear gloves; protect eyes & face during handling. Splashes on skin, must be washed off immediately with soap and plenty of water.
- Wash equipment immediately after use with water.
- Store in cool, frost free premises.
- Keep out of the reach of children.

Refer to the PSDS for further information.
